

# SALONE DEL RESTAURO

Ferrara Expo

Via della Fiera, 11

12, 13 e 14 MAGGIO 2026

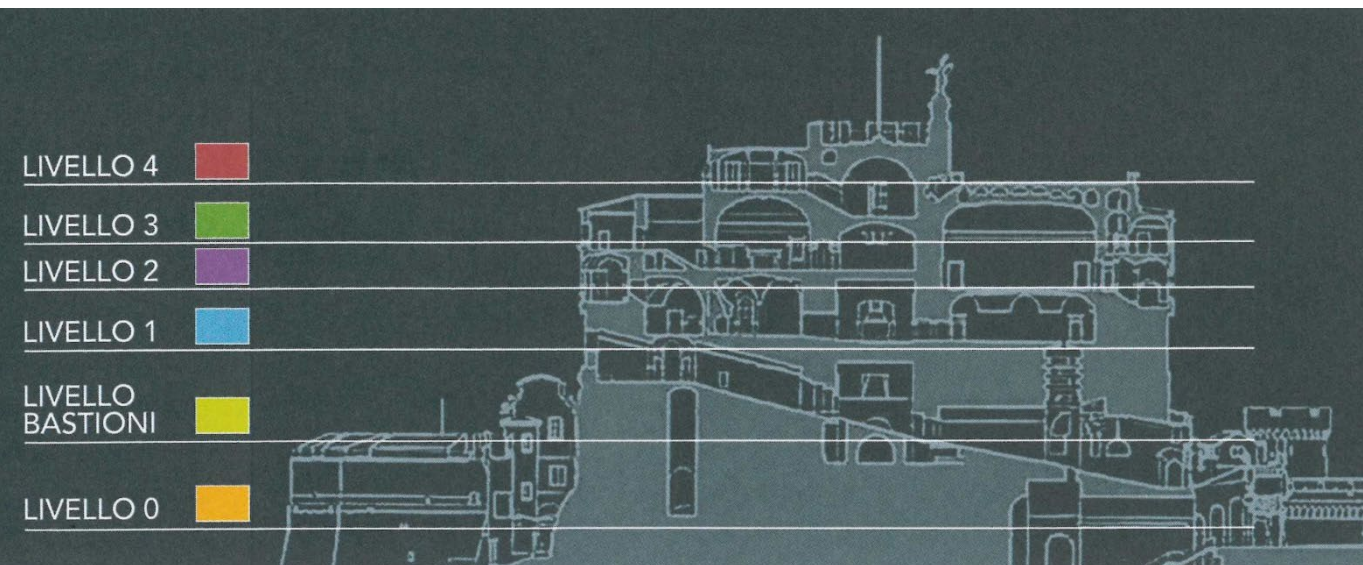

## La progettazione integrata delle componenti impiantistiche: convergenza di tutela e sicurezza

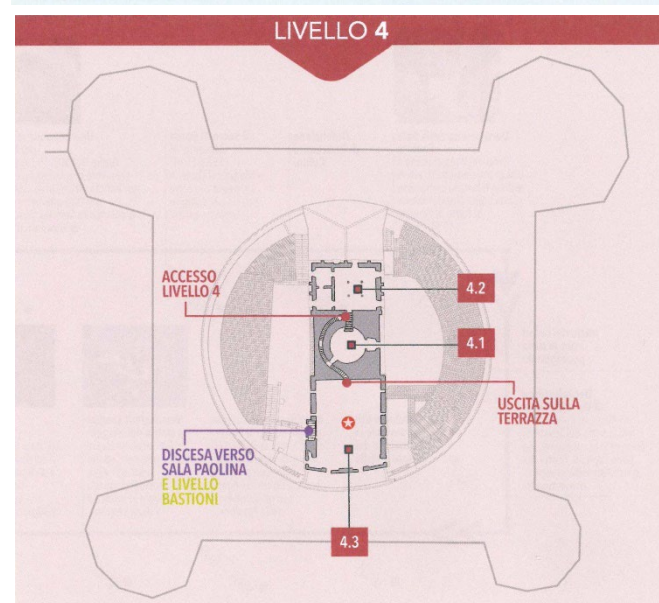

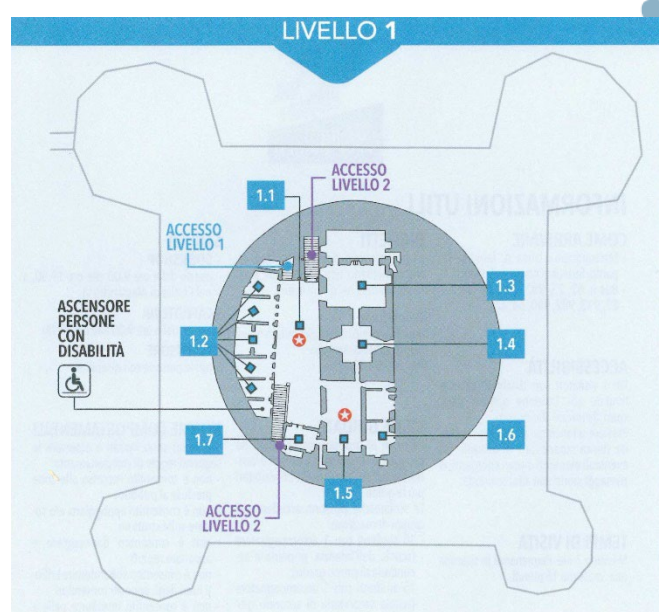

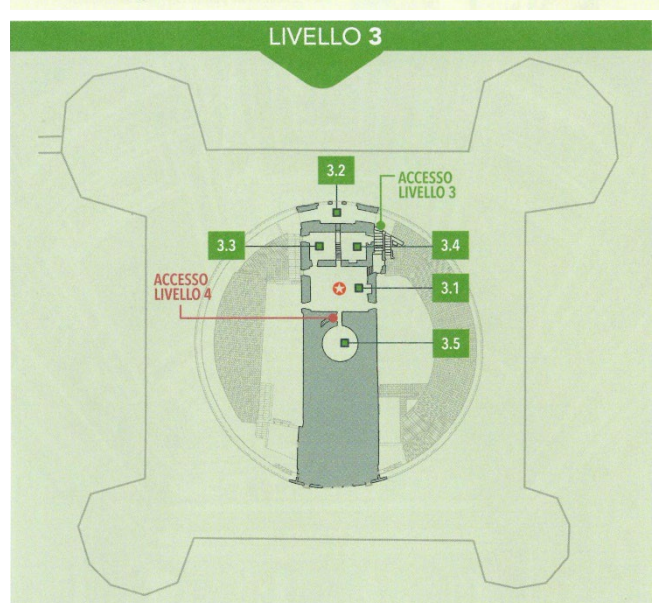

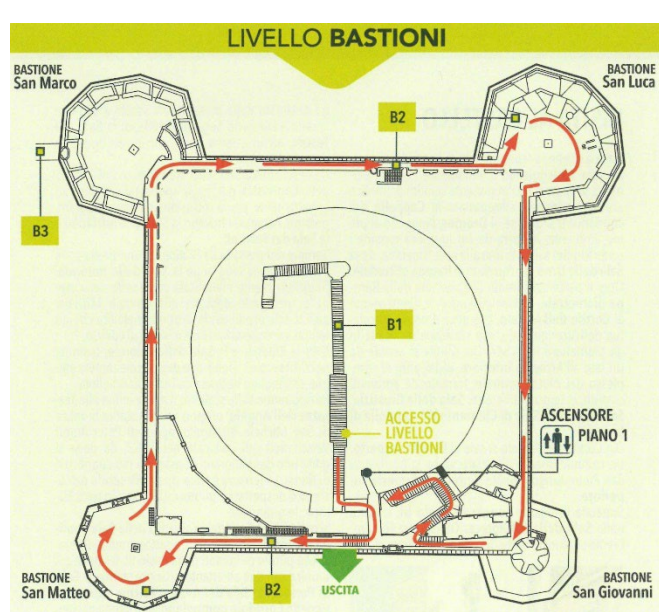

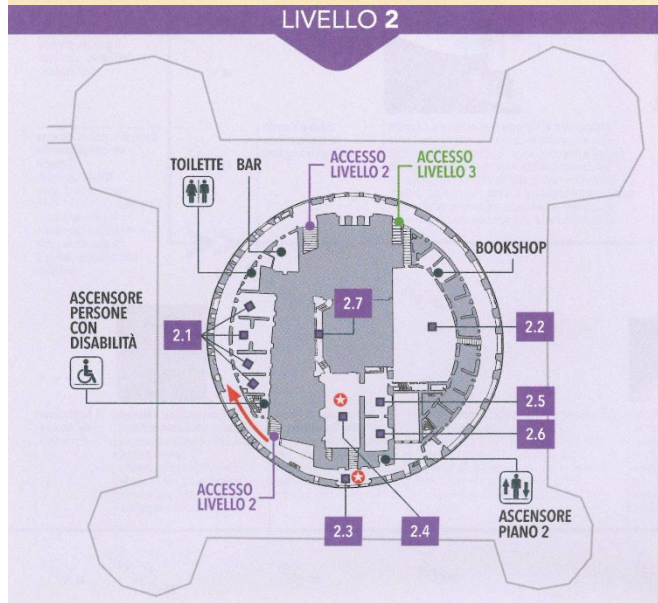

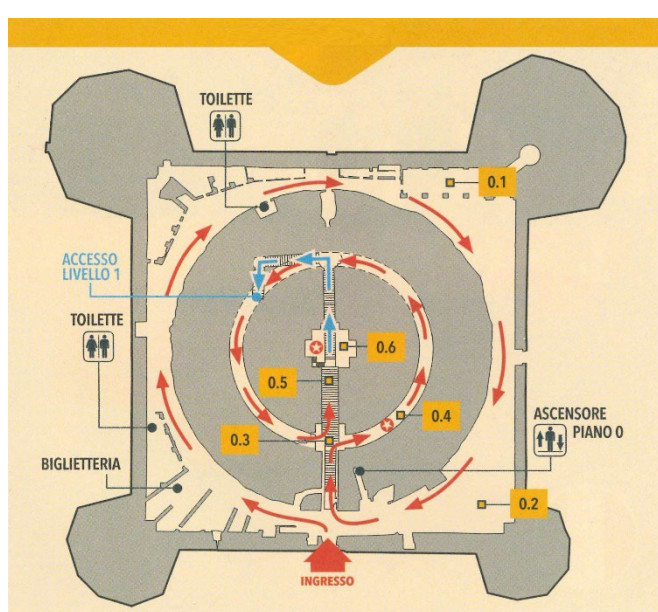

**Antonio Zunno**

Soprintendente archeologia belle arti e paesaggio per le province di Brindisi Lecce e Taranto

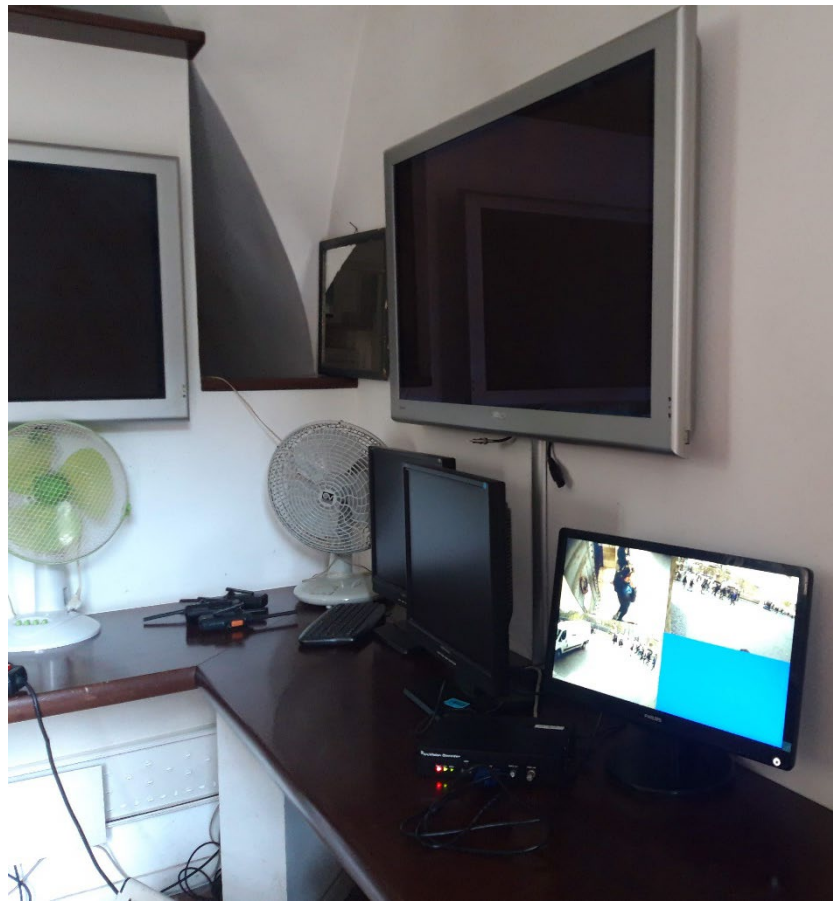

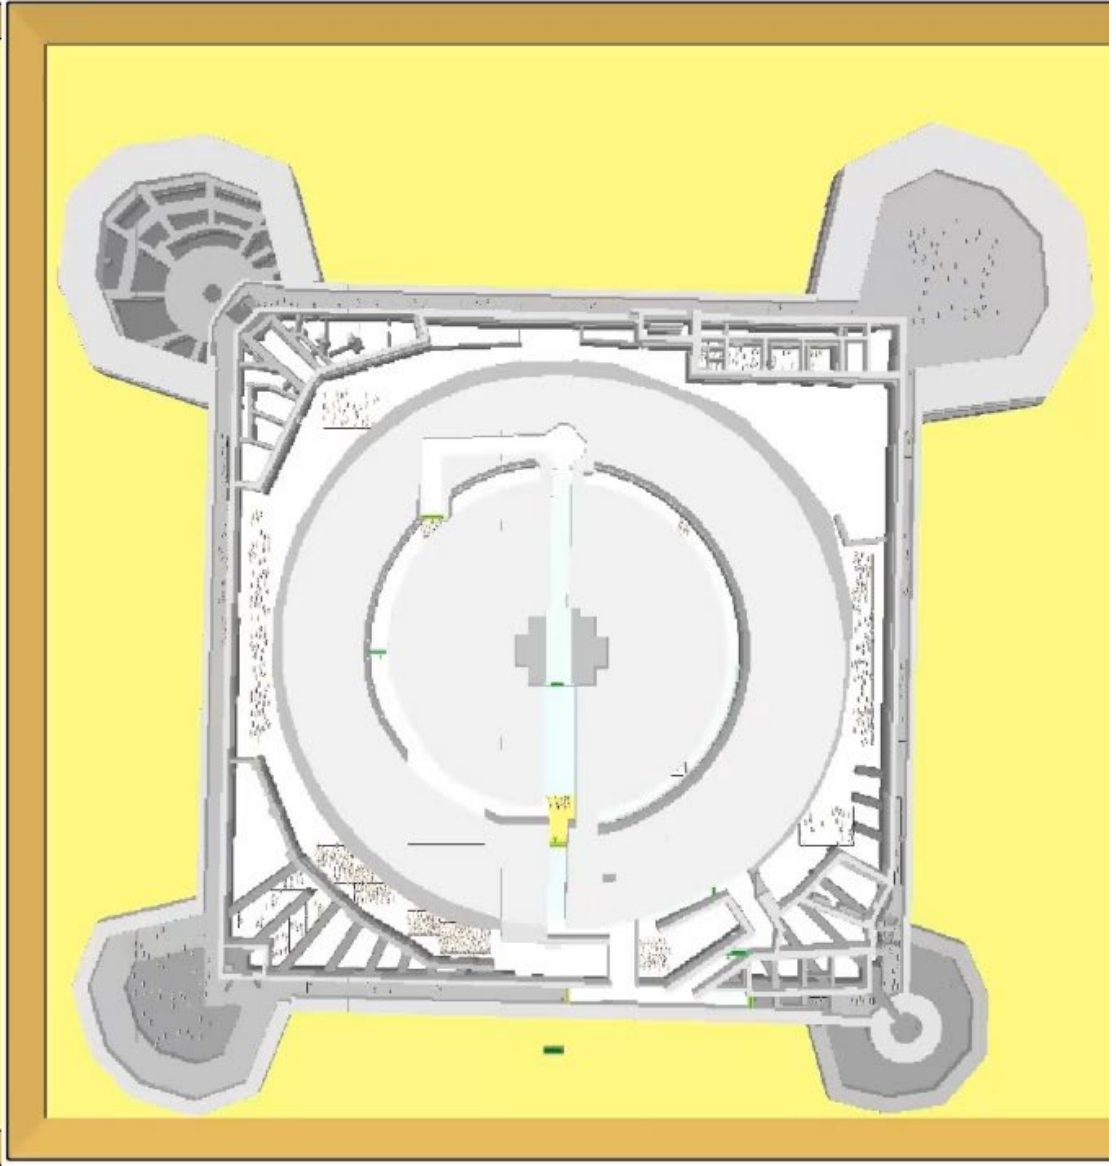

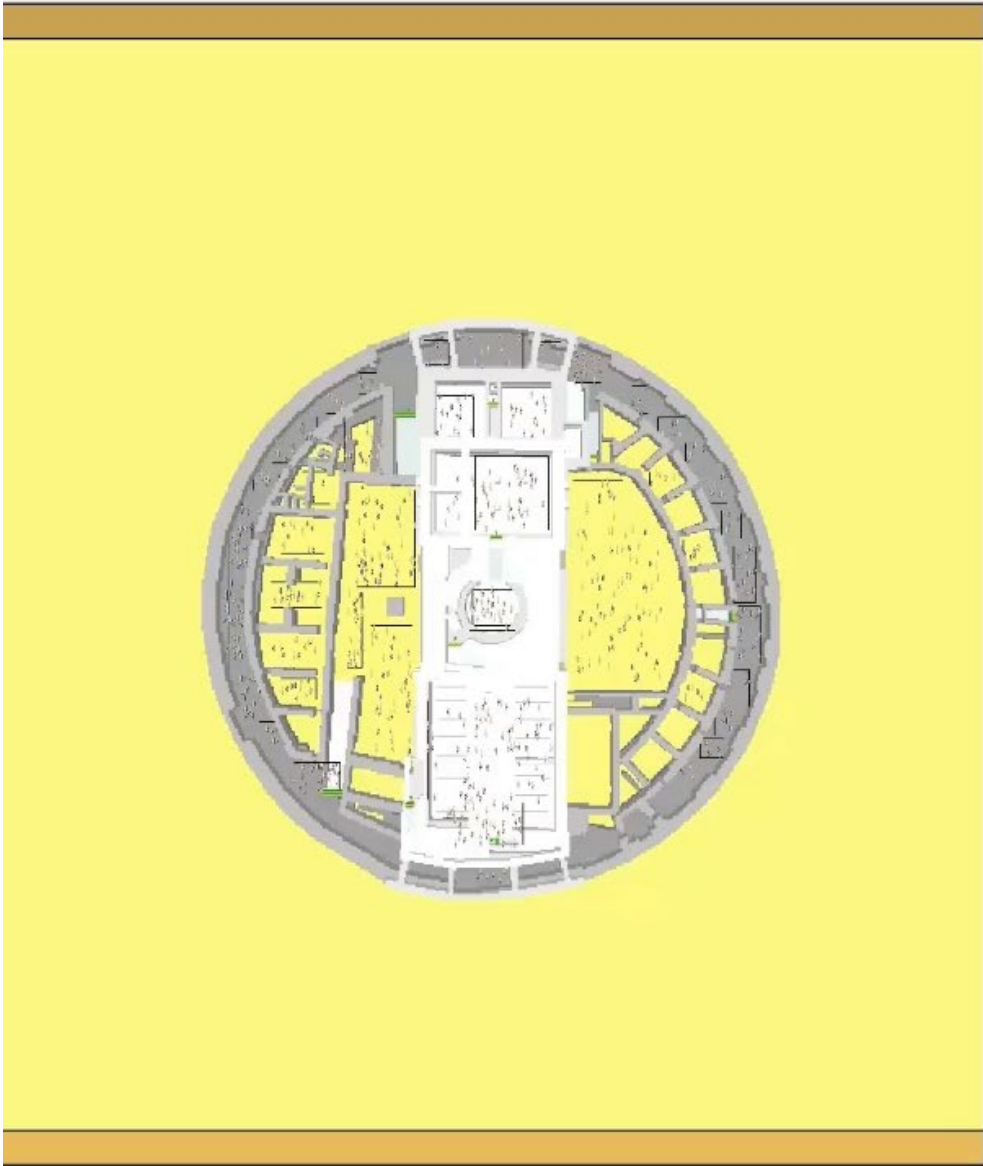

Un monumento iconico come il Museo di Castel Sant'Angelo a Roma è dal punto di vista della sicurezza un edificio complesso, pluristratificato, la cui accessibilità e controllo dei flussi di visitatori mette alla prova ogni giorno la macchina amministrativa del museo

## Nuova control room
